

Meter terminal block and Meter terminal kit MTBA MTKA MTKB MTKC Data sheet

MTBA

Product description

The MTB and MTK kit are a terminal block, including all the terminals to connect a 3 phase, TPN, meter.

The MTB is mounted on a length of DIN rail, and the terminals are numbered for convenience.

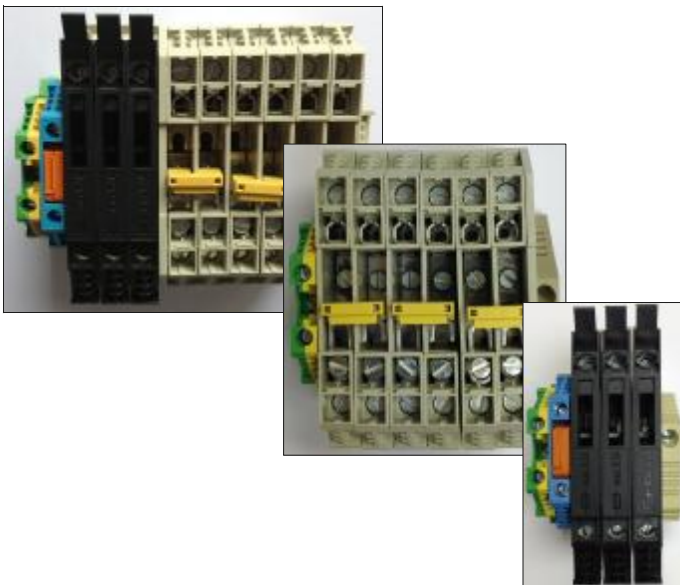

- All terminals for TPN meter
- Buy just the terminals for the job
- Fuses pre-fitted
- Simple servicing
 - Neutral has disconnect
 - Fuse terminals can be lifted out
 - CT terminals have shorting bridge

MTKA MTKB MTKC

MTKA has the full 3 phase, terminals.

MTKB has the CT terminals and an Earth to link the S2 of all the CT terminals to earth.

MTKC has the Voltage terminals. Useful if a high current supply needs to be fused down for metering or logging.

Specification

- Earth terminal Buy just the terminals for the job
- Fuses pre-fitted
- Simple servicing
 - Neutral has disconnect
 - Fuse terminals can be lifted out
 - CT terminals have shorting bridge

Terminals

- Earth (1) 4mm²
- Neutral (1) 4mm²
- Fused terminal (3) 4mm²
- Fuse (3) 1A slow blow
- CT terminals (6) 6mm²
- End stop
